- ★ NO CHEATING, HACKING, HOPPING OR GLITCHING! This is one of the most important rules. Any member of [KOB] found to be hacking or cheating will be removed immediately and banned from [KOB] servers.
- ★ No swearing! Foul language is not tolerated by any player on our servers and so we expect [KOB] members to act the same. Lead by example. Try not to swear on the public servers if possible. If you find it difficult, please find use of the “Shift + 8” combination resulting in the following effect “NO SWEARING YOU F***ING B***ARDS!”
- ★ Show up, Have fun and TRY to join Team Speak. Although it is not necessary, it is where most of the fun is had. Team speak is also vital for any LEAGUE matches. Microphone is not a requirement, only that you can listen in. Make sure you show your face every now and again on the [KOB] servers. After all, why wear the tags if you're not going to play along? Having fun is the main aim of [KOB]. If you are not having fun for whatever reason, let us know on the forums by posting a thread or alternatively you can PM an admin (a list of admin names are shown on the Home page of our site www.kobclan.co.uk)
- ★ WATCH THE BINDS! Bind spamming has become an issue with several clans close to [KOB] over recent years and it is not something [KOB] wish to deal with. So we ask that all members DO NOT BIND SPAM. And please refrain from using racist or abusive binds on the public servers. Repeated use of offensive binds will result a warning. Three warnings and you will be removed from the clan.
- ★ When on [KOB] servers, always try to be helpful. Remember, we want to be a respected clan, not a hated clan. If a player has a problem directly related to [KOB] then help in anyway you can. Always try to be civil and friendly when playing our public servers too. We do not want players leaving the server never to return because of excessive bragging or mocking. The last thing we expect to see, is a [KOB] member calling a low level player with no knowledge of the game a “Noob”. We know they are, they know they are. They do not need us to point it out and humiliate them.
- ★ If you have any issues with players in the [KOB] servers, report it to an admin. Rcon Privileges have been given to

numerous players in the event of no clan admin available. If there is an admin available, either ask them to deal with the problem or inform them of what you are doing and why. That way if there is a dispute at a later date, there will be an admin who can back you up if necessary. Rcon Passwords have NOT been given out so you can use and abuse the RCON Console. Any non-admin found to be abusing the Rcon will be directly responsible for the removal of all known Rcon passwords and so no one but admin will have access. Following three simple steps helps cover you back in the event you come across an unpleasant player or a hacker...

1. Seek an admin.
2. Either let the admin deal with it or request permission to deal with it yourself.
3. In the event of no admin being present, take the action you feel necessary but please **POST ON THE FORUMS!** If you post what you have done on the forum and why, you will have the full support of the admin should your actions be justified.

★ If you are going to be away for awhile (more than three weeks), let us know. It is important that we know that you are still interested in being a member of [KOB]. Any member wishing to Leave [KOB] should let us know so we can remove you from the roster and free up space.

★ If you change your In-game name, **LET US KNOW**. If you do not, we might take you to be an imposter and ban you from the [KOB] servers.

To cut a long story short, we expect all members to behave in a sensible manner and use their common sense.

ADDITIONAL INFORMATION:

Use of Rcon;

No members of [KOB] that have access to Rcon Passwords should ever have to use any rcon commands other than the following

```
/rcon login <password>  
/rcon status  
/rcon clientkick <player id>
```

If you believe more action is required than a simple kick, please check with an admin first! If no admin is available then use the following;

Shift + ` to open the expanded console.

```
/rcon status
```

Find the player you need information on and write down their GUID (long series of letters and numbers)

```
/rcon tempban <player id>
```

After applying the temporary ban, post all available information in a PM to an admin including the time you banned, the full name (including symbols and colours if known) and why. Then we can take any additional actions necessary such as enforcing a permanent ban. Alternatively you can post a thread on the “Caught a cheat” forum **BUT DO NOT POST THE GUID HERE** please! Wait for an admin to request the GUID and then PM them with it.

NO MEMBERS SHOULD EVER HAVE TO ALTER THE GAME SETTINGS USING RCON! THIS IS A DIRECT VIOLATION OF RCON AND WILL RESULT IN ALL PASSWORDS BEING CHANGED!

RECRUITING;

If you are asked by a player for information about joining [KOB], direct them to the website (www.kobclan.co.uk). If they wish to join, tell them that [KOB] is invite only and that they should use the “Say Hello” forum to express an interest in joining. They must have at least one admin sponsor them to join the clan before they are considered and they must be at least 18 years old.

SERVER RULES FOR ALL PLAYERS;

Please read the following rules so you can help keep our servers enjoyable and grief free, there are also several bits of information to help you reassure other players. If someone is repeatedly breaking one of the following rules then please let an admin know immediately, if none are available and you have access to Rcon, follow the rules set out in the “Use Of Rcon” section above. If you do not have Rcon, then again you should follow these instructions.

- 1) Press Esc, and select Spectator from the Change Team option.
- 2) Press Esc again and now select the same team as the person breaking the rules BUT DO NOT CHOOSE A CLASS.
- 3) Using "Left" and "Right" mouse buttons, cycle through the players on that team until you find the offender.
- 4) Open up console (^/~ key) and type the following /record <demo name i.e. Cheat1>
- 5) This will record a demo from first person point of view. So if the offender dies, you will have to cycle through to them again.
- 6) When you have successfully recorded the player breaking the rules open console again and type /stoprecord.
Note: Depending on your OS, the demo will be saved in a different place. Ask an admin/member to help you locate yours.
- 7) Send the demo to an admin. We will then look at the demo and make a decision based on the evidence you have provided.

RULES OF THE SERVER;

These rules are also placed on the navigation bar at the top of the website [HERE](#).

★ Cheating

All [KOB] server are protected by Punkbuster. Which automatically takes screenshots and checks Cvars and MD5 tools! All servers also stream live to Punksbusted and pbbans and admin/clan members take demos. If you are caught cheating you will be banned from all servers and the website! No warnings are given.

★ "Griefing"

Don't give people a hard time, people play this game for fun, so do not give other players a hard time because you don't like the way they play for some reason. Calling people a cheat when you have no proof or making comments such as "Noob" or "lamer" is classed as griefing, if you do this you will be warned then kicked from the server and if you persist you will be banned. Once you have been kicked, you will receive one more warning before a ban is issued. If you suspect someone of cheating record a demo for verification by an admin. Remember! Accusing a player without proof is griefing, there are a lot of good players out there. Just because they play better then you doesn't make them a cheat!

★ Bad Language

There are young players who use our servers, so use some common sense here. The in-game "AI" uses some colourful language, however this does not excuse anyone from using foul language on our servers. Anyone found to be swearing will be dealt with in the same manner as those griefing!

★ Racial Comments

Making racist comments will not be tolerated, no matter what context they were said in and will result in a kick or even a ban! It is up to the discretion of the Admin if you are kicked or banned and we will fully support their decision.

★ Player Names

People have the right to call themselves whatever they like, but if the name causes offence, i.e. if it has a racist element to it, the player will be asked to change it. Refusal to comply will result in the player being kicked from the servers! Like wise, players with the name "unknown player" or "unknown soldier" will be asked to get a proper name or they will be asked to leave or be kicked also.

★ Admin

Please to not pester admin to change mods, maps or game types while they are playing on the server. They need to have some fun as well remember, all request's should be emailed to the relevant admin.

★ Blockers

Players who constantly play in a manner that is designed to frustrate or annoy others could also be classed as greifing, an example of this would be players known as "blockers". A Blocker is someone who stands or remains prone in doorways to stop team mates from exiting building's in order to achieve a higher score.
